Trustee—South Orange County College District Area 1

As a retired community college teacher, and a former president of the California Community College Association, I value our community colleges' mission, and the functions of our local colleges in our community.

Saddleback and Irvine Valley Colleges' affordable education fosters economic recovery, develops our workforce, and provides lifelong learning.

I'll use my experience as a leader and teacher to enhance the quality of programs provided by our colleges.

I'm committed to the conservation of scarce resources to best serve our community, without raising taxes.
